Private and Confidential – Legal Privilege
In Preparation of Possible Litigation

Gentlemen:

Please find attached a draft format for letters which should be sent by your respective offices to our current US and European clients, as well as those clients we may be in discussion with for new projects.

Believe that the letters should come from your offices, as this is a serious issue and by coming from your offices, it shows that we are on top of things from the highest level. This should be sent to your counterparts at the various companies and let them disseminate via their internal channels to their own people, i.e., the project teams, finance, legal, etc.

Please let me know should you have any specific questions on the draft or the approach to be taken.

Should you receive responses to this, please direct same to legal for further handling and follow-up.

Also, please note that any and all correspondence dealing with this issue should be kept to a minimum, and should have the aforementioned "Privilege" marking at the top. No dissemination outside of the Group should be made on any correspondence labelled "Legal Privilege", as that may void the privilege invoked.

Regards,
Jeff
